

NEROLAC FUNGICIDAL BIO-WASH SOLUTION

NEROLAC
Colours that Care

PRODUCT DESCRIPTION

Nerolac Fungicidal Bio-Wash Solution is a unique aqueous anti fungal solution for treating fungus affected areas before painting. It has low odour & low toxicity (is safe to use). The superior fungicide suspended in the solution, penetrates deep inside the concrete plaster, kills majority of fungai and prevents the growth of algae by providing a good surface for painting.

PRODUCT FEATURES

RECOMMENDED AREAS OF APPLICATION

Area of Use:	Exterior & Interior
Substrate:	Concrete & Plaster

SURFACE PREPARATION

Remove any algae, fungus & paint flakes from the surface by scrapping. If grease, oil is present, clean it using a mild detergent & rinse thoroughly for complete removal of grease & detergent. Recommended to be applied over the fungus affected area directly. Ensure that the surface is completely dry. No water should be present on the surface before application.

APPLICATION DETAILS

Method of Application:	Brush
Thinning:	Not Required

RECOMMENDED SYSTEM FOR APPLICATION

- Mix the material thoroughly taking care to avoid spillage to body parts.
 - Apply a liberal coat on the contaminated surface by brush.
 - Allow to dry for minimum 6-8 hours. Sand the surface to remove the dried fungus.
 - Once thoroughly dried, sand the surface again using 320 grade emery paper ensuring no fungus or black spots on the surface & then apply recommended primer.
- * Should be applied on the surface before painting

TECHNICAL DATA

Finish:	Not Applicable
Appearance:	Clear Liquid
Drying Time:	Minimum 6-8 hours

SAFETY PRECAUTIONS
